DESTITUTION IN LABRADOR .- A telegraphic dispatch from Montreal in yesterday's GAZETTE stated that great distress prevailed in Labrador. Mrs. Russell, a young and very intelligent woman, makes the following statement: "We are here because we could live there no longer. We were almost starving. We have often been hungry. The fishing has fallen away. The people can't live, and they can't get away because they never received a shilling in their lives. We are paid for our fish in goods and clothes. We have to pay three prices for everything. The fishing lasts only three months, and we have to live the other nine months out of the profits of the three. nine months out of the profits of the three. The fishery has so fallen away that there is barely enough made to keep us during the summer. The spring is the worst season, for then there is nothing at all. The government gives a little assistance, but what is a little flour, peas, molasses and meat! I didn't taste fresh meat during the last twenty-five years. Such a thing is never thought of. We have often ground peas and made a sort of tea out of them. No such thing as meat or potatoes or vegetables. The whole country is a barren rock. nine months out of the profits of the three. bles. The whole country is a barren rock.
We have got salt meat, and not enough of
that. When fishing was good we could
manage to live, but instead of getting about a hundred quintals, we can only get about thirty five now, and on that we have to live nine months. There are now about a hun-dred families in Bethel Harbor. All who can get away are going."

A Sad Case of Poisoning

is that of any man or woman afflicted with disease or derangement of the liver, result ing in poisonous accumulations in the blood, scrofulous affections, sick headaches, and diseases of the kidneys, lungs or heart. These troubles can be cured only by going These troubles can be cured only by going to the primary cause, and putting the liver in a healthy condition. To accomplish this result speedily and effectually nothing has proved itself so efficacious as Dr. Pierce's "Golden Medical Discovery," which has never failed to do the work claimed for it. and never will.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as

great on account of its known richness and promise. The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery,

has been purchased and will be on the ground ready for erection at the mine within the next thirty days. The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence

of the public, and the stock has steadily advanced in selling value, Within the last few days bona fide sales have been made AT PAR. There is no better stock on the market for a permanent investment.

The GAZETTE is now the oldest paper to the State, and with few exceptions the oldest in the country, and its usefulness has been demonstrated and appreciated during the EIGHTY-SEVEN YEARS of its existence. In its columns has always been found a mirror of passing events, and the careful chronicling of the history of what is going on in the world has ever been its aim. It is always welcomed in the household, while in the counting room and workshop it has become

The GAZETTE has better facilities for obtaining news than any paper outside of the national capital. Situated as it is so close to the great centre of news, it enjoys daily the benefit of the Associated Press dispatches from every part of the world ; hence its patrons can read from its columns in the evening what has transpired that day in every portion of our own domain as well as from every part of the babitable globe. Consequently it is an every day occurrence for the GAZETTE to publish telegrams from the various European capitals twelve and

The local department furnishes a full and complete history of everything that occurs n and near the city, and this feature will,

The GAZETTE's circulation is steadily in creasing, especially among people who consult its advertising columns before purchasing. That this is self-evident may be inferred from the fact that a large country edition-nearly as large as the daily-is sent all over this section of country three times a week, and is read by thousands, most of whom send here or to contiguous cities to make purchases. The advantages of advertising in the GAZETTE are, therefore, apdarent. *
